Grade 8 Summer Reading

The summer reading theme for students entering eighth grade is leadership. Some people seem to be born leaders, but the rest of us can develop into leaders, and that is one of the goals your teachers this year have for you. Since you're now the oldest students in the school, eighth grade is the perfect opportunity to either improve upon your leadership skills or to develop some leadership skills.

The first part of your mission is to read a book that has something to do with leadership. We've made some book suggestions, but if you'd rather read something else, that's fine as long as the book you choose has something to say about leadership. **The second part** of your mission is to answer the TWO essential questions and the prompt that are written below and address ONE of the three essential tasks. Hopefully you are going to type your answers. If you do this as a google doc, you can share it with me. If your penmanship is neat and will be easy for your teacher to read, you may write your answers by hand in either pen or pencil. If you do this assignment by hand, you can just bring it with you to school. **The final part** of your mission is to be ready to participate in a discussion about leadership and the book you read.

Directions: Answer both essential questions and the prompt.

ESSENTIAL QUESTION #1 [You have to do this one.]

What is leadership? In general, what skills, behaviors, and character traits does a leader demonstrate? You need to develop and discuss your ideas. We don't just want a list.

ESSENTIAL QUESTION #2 [You also have to do this one.]

How does a major character in the book you read show leadership? Identify specific skills shown by the character and tell how those skills impacted other characters or what happens in the story.

PROMPT [You have to do this also.] Think of someone in your own life who has shown leadership.

Identify specific skills shown by this person and tell how those skills impacted other people in his/her life.

Directions: Choose ONE of the following Essential Tasks below:

ESSENTIAL TASK #1 [There are three essential tasks. You have to do one of them.]

Evaluate your own leadership skills and potential. Do you see yourself as a leader? If you do, explain what makes you a leader. Can you give an example of a situation in which you were a leader?

ESSENTIAL TASK #2 [If you did essential task #1, you don't need to do this one.]

Evaluate your own leadership skills and potential. Do you see yourself as a leader? If you don't, identify several skills that you could practice this year that will help you to begin to see yourself as a leader. Finally, what types of things will you need to do in order to practice these skills? Try to be specific.

ESSENTIAL TASK #3 [If you didn't do essential tasks #1 or #2, you need to do this one.]

If you are someone who would prefer not to be a leader, think of some reasons why it would still be worthwhile to develop some leadership skills this year. Identify at least two leadership skills that you would be willing to work on. How might having these leadership skills make you more successful over the next year not just in school but in your life outside of school during the next 12 months?

Frequently Asked Questions:

1. How long does this have to be? Answer: Most, if not all, teachers dislike this question. Your answers need to be long enough to be thoughtful and interesting to read. Quantity and quality are two different things. We're interested in quality.
2. Do I have to write in complete sentences? Yes, of course you do. We're your English teachers.
3. Do spelling, capitalization, and punctuation count? Yes, always. You've been using the English language for many years now, so we're expecting a certain level of literacy. Also, handing in work that is neatly and correctly done reflects well on you. Handing in work that is messy, thoughtless, uninteresting, and/or poorly written reflects badly on you. Perfection isn't expected, but effort is, and it counts. A lot.
4. Will this be graded? Not exactly, but here are some things that we will be noticing.
 - How neat and easy to read is this assignment? very/o.k./a chore to read/too much of a chore to read
 - Are both essential questions done? Yes/No
 - Is one of the three essential tasks done? Yes/No
 - The work you turned in is very interesting/ interesting/could be more interesting.
 - Overall your writing skills seem to be strong/pretty good/a little weak/worrisome
 - Participation in class discussion about leadership and the book you read:
 - excellent/satisfactory/unsatisfactory/nonexistent
5. When is this due? We begin school on a Tuesday this year, so this assignment is due the following Monday.. If you're doing the assignment on computer, you can turn it in any time:
mbilentschuk@drregional.org.
6. What if I decide not to do any summer reading? You will be given a closely related assignment to be completed for homework or after school if that's easier.

Lu, by Jason Reynolds

Lu was born to be cocaptain of the Defenders. Well, actually, he was born albino, but that's got nothing to do with being a track star. Lu knows he can lead Ghost, Patina, Sunny, and the team to victory at the championships, but it might not be as easy as it seems. Suddenly, there are hurdles in Lu's way—literally and not-so-literally—and Lu needs to figure out, fast, what winning the gold really means.

At first, it's a rush following Mike, hopping turnstiles, subway surfing, and getting into all kinds of trouble. But Bryan never really feels right acting so wrong, and drama really isn't him. The Eye of Minds (Mortality Doctrine, Book One) by James Dashner.

‘Michael is a gamer. And like most gamers, he almost spends more time on the VirtNet than in the actual world. The VirtNet offers total mind and body immersion, and the more hacking skills you have, the more fun. Why bother following the rules when most of them are dumb, anyway? But some rules were made for a reason. Some technology is too dangerous to fool with. And one gamer has been doing exactly that, with murderous results.

The government knows that to catch a hacker, you need a hacker. And they’ve been watching Michael. If he accepts their challenge, Michael will need to go off the VirtNet grid to the back alleys and corners of the system human eyes have never seen—and there’s the possibility that the line between game and reality will be blurred forever.” [copied and pasted from Amazon]

I Am Malala: How One Girl Stood Up for Education and Changed the World (Young Readers’ Edition) by Malala Yousafzai and Patricia McCormick

Wheels of Change: How Women Rode the Bicycle to Freedom (With a Few Flat Tires Along the Way) by Sue Macy

Witty in tone and scrapbook like in presentation, the book deftly covers early (and comical) objections, influence on fashion, and impact on social change inspired by the bicycle, which, according to Susan B. Anthony, "has done more to emancipate women than anything else in the world."
